DETAILED ACTION

1. This action is responsive to communications: original application filed on 12/08/1999.
2. Claims 1-30 are currently pending in this application. Claims 1, 12, 19, 25, 28-30 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-27 drawn to a method for generating index information for audiovisual objects, classified in class 715, subclass 501.1.
 - II. Claims 28-29 drawn to a method for converting from a language to another language, classified in class 704, subclass 5.
 - III. Claim 30 drawn to a system for patterning recognition module, classified in class 382, subclass 181.

The inventions are distinct, each from each other because of the following reasons:

4. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as generating index information for audiovisual objects, invention II has separate utility such as converting from a language to another language and invention III has separate utility such as patterning recognition module. See MPEP § 806.05(d).

Art Unit: 2176

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and Group II is not required for Group III, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
